## Q & A

# BAE Systems

Olly has shown a great interest in working at BAE Systems, Barrow, so we arranged a Q&A session with Kev, a senior weights engineer. Olly created a questions sheet including all the information he would like to know from the session and Daisy and Joe chose, from this list what questions they would like to ask. 4KH engaged well in this session, engaging Kev in discussions well and asking his advice on which is the best pathway into working at BAE.
